Xvoucher's AWS Certification Pathway Package

Product Overview

Your team needs to develop the right skills to scale your AWS cloud transformation. Xvoucher's widely used skill development platform enables your employees to develop critical cloud skills and prepare for certification - while providing you with comprehensive insights into their progress.

Xvoucher's learning packages come in various sizes to meet the needs of your business. "Flex seats" can be used for the AWS Foundational, Associate, or Professional Certification pathways. Each package includes a 1-year administrator license to Xvoucher's SaaS application for managing learning materials and certification progress. Xvoucher is an authorized reseller of AWS Certification exams.

Each Seat includes:

- 1-year subscription to award-winning full-length practice tests from [CyberVista](#)
 - Customize your learning experience with a robust set of detailed questions, answers, explanations, and references.
- 1-year subscription to the *Ultimate Training Package* from [Digital Cloud Training](#)
 - Access video-based e-learning content, a full-length practice exam, and an e-book with comprehensive training notes.

To receive a private offer, send an email to aws-help@xvoucher.com, or contact your AWS Account Manager.

What is a flex seat?

With a flex seat learners will log into their Xvoucher account and select the title that best fits their certification journey.

CyberVista® Practice Exams

Each seat includes 1-year of access to the CyberVista practice exams.

Tests can be difficult but preparing is easier with industry-leading practice exams. CyberVista® provides unlimited, simulated practice exams for AWS Certifications.

- **Customizable**
Choose specific topics you want to test on and set the number of questions you'll be asked about each topic.
- **Real questions**
Practice exams feature questions that closely resemble ones you'll see on real exams.
- **Flashcard experience**
There's a lot of terminology in IT. To pass certification exams, you'll need to memorize key terms and concepts.

CyberVista's Practice Exam Packages are designed to help learners prepare for their next certification and perform on exam day. Learners can study at their own pace, whenever they want, and wherever they are most comfortable. Practice with exam-like questions.

What is included:

- Multiple unique sets of exam-like questions for additional exam experiences
- Custom quiz settings to drill down into specific topics
- Detailed explanations and references
- Grade as you go or simulate the exam experience
- Performance Tracker to see how your performance stacks up to others
- Full set of key concepts flashcards to memorize critical information
- Online access and downloadable and printable quizzes for offline study
- Study Calendar to optimize your exam study time
